

Client: A leading provider of banking, super, and retirement solutions in Australia

What the Company Needed

Client was keen to upgrade its financial crime risk management capabilities to not only enhance compliance but also to set an industry benchmark. It was on the lookout for a solution that would not only ensure robust risk management but also positioning the client as a financial crime prevention leader in the market.

How Genpact Helped

Genpact conducted an in-depth assessment of client's end-to-end financial crime operations. It deployed its proprietary RiskCanvas® platform, which leverages Gen AI to reimagine FCRM for long-term success. This strategic implementation focused on enhancing operational efficiency and regulatory compliance.

Client Impact

- ❑ Enhanced screening coverage that meets and exceeds risk management requirements.
- ❑ Fulfilled regulatory commitments within just 12 months.
- ❑ Achieved a 40% reduction in compliance costs, significantly improving operational efficiency.
